About Us

Dixis Recursos y Soluciones S.L. is a Menorca-based company specialized in technical installations, systems integration and IoT solutions for critical infrastructure. We are part of a group of branch offices with presence across the Balearic Islands, providing local support with the backing of a broader organizational structure.

We develop projects in highly demanding environments, including the airport sector and public administrations in the Balearic Islands. Our secure project credentials enable us to work on classified and restricted-access facilities.

Areas of Activity

Technical Installations

- Plumbing and water distribution networks
- Electrical systems and control panels
- HVAC and energy efficiency

IoT and Digitalization

- Smart metering (water, energy)
- SCADA systems and remote telecontrol
- Sensors and remote monitoring
- Cloud platform integration

Secure and Critical Projects

- Airport facilities (AENA - Spanish Airports)
- Institutional and government buildings
- Municipal infrastructure (water cycle management)

Experience and References

Our project portfolio includes work for:

- AENA / Menorca Airport (secure installations in airport environment)
- Municipalities across the Balearic Islands (water and urban infrastructure)
- Public institutions in Menorca (buildings and facilities)

We regularly operate in environments requiring security clearance, structured cabling, service continuity and full

Dixis Recursos y Soluciones S.L.
